

FusionPro *Expression*[™] Creator

The Ultimate Image Personalization Solution

FusionPro Expression Creator is the premiere image personalization solution that combines data and imagery to produce truly unique and compelling personalized images. The use of personalized images within print, email, web, and other marketing vehicles has proven to dramatically increase readership and response rates. This innovative product is now widely available and affordable to the marketplace operating on both MAC and PC platforms. FusionPro Expression Creator offers unlimited usage with no charge per image providing limitless possibilities.

Perfect Your Solution Suite

Adding image personalization to your organization's capabilities increases your brand value. Use FusionPro Expression images in print, email, or web to provide truly unique cross media campaigns.

Unlimited Usage and No Charge per Image

Starting at an affordable price with unlimited usage and no charge per image produced, FusionPro Expression Creator is the personalization tool to complete your solution suite.

Hundreds of Pre-Built Templates

The template library is full of unique images and fonts that can apply to almost any marketing campaign. Take advantage of pre-built templates, create your own designs, or utilize PTI's full service design team to maximize your resources.

Intuitive User Interface

Users need minimal training to modify or produce highly effective designs thanks to FusionPro Expression Creator's intuitive user interface.

Powerful and Effective Campaigns

Print and digital campaigns using personalization continue to rise due to its undeniable effectiveness. Use FusionPro Expression products to drive extraordinary readership and response rates.

Flexible, Scalable, Compatible

FusionPro Expression products are Macintosh and PC compatible. Output images using a local desktop computer or PTI's cloud servers. FusionPro Expression Creator scales quickly and easily with integrations into the FusionPro VDP Suite, FusionPro Expression Cloud and MarcomCentral.
